

# Scrub Island

RESORT, SPA & MARINA, BVI

## Your own private island in the Caribbean

Step onto our private launch waiting for you at Tortola's airport and within minutes you will be transported to the best kept secret in the British Virgin Islands (BVI). Designed with you in mind, discover new modern luxury.

Sprinkled along our coastline, find secluded beaches, Ixora Spa, a peaceful setting with personalized pampering, and the resort's marina with adventure-seeking excursions - snorkel, deep-sea fish, dive and sail. From the island's highest point, take in panoramic views of nearby islands, as well as sailboats in surrounding waters.

Our Marina Village, a more urban environment, is home to our all-ocean view guest rooms and suites - our villas are tucked into more private areas of the island, a 24-hour fitness center, boutique, gourmet market and dive shop. Bask in the sun in one of our multi-level pools or kick back at our poolside, beach or swim up bars. Sample a taste of the islands at our casual restaurant or experience fine dining while overlooking yachts moored at our docks.

Should your visit involve more work than escape, our resort offers wireless Internet service. With the largest air-conditioned meeting facilities in the BVI, we are a growing destination for weddings and incentive travel groups.
